

Branding & Equipment

Week 1

Welcome to **Week 1!**

Looking over the list of participants in this group training course, I notice that we have people in pretty much every stage of the journey in podcasting.

For those who are just starting out, I suggest that you follow the weekly outline, like this, that I will provide at the beginning of each new week. This outline is designed to take you through each step in the process without overwhelming you with too much information all at once.

For those who are eager to jump ahead, I have decided to provide immediate access to all the tutorials on a single page. You can access this page by [clicking here](#).

Important Note Regarding Access To The Tutorials! I've been getting several reports like this just recently. Of each of the people who have reported this, one of the following four things has worked to completely resolve the issue.

If you are having issues with the passwords, here are the four things to try.

- 1) Try manually typing in the password instead of copy & pasting it.
- 2) Try restarting your current browser.
- 3) Try clearing out your cookies.
- 4) Try a different browser.

// A Message from Cliff...

In our discussion forum, you should see a discussion topic that has your name on it. The first thing I would like to ask each of you to do is to use the response box to introduce yourself and your goals to myself and the group.

Once you find the topic with your name, you may want to bookmark it, as you will use this ongoing discussion topic to ask any questions that you may have where there is not already a discussion topic set up for the type of question you have.

This will be explained in more detail in the Opening Session video.

Look forward to seeing where your journey takes you!
